TOPIC	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
<p><b>MASTERCHEF – WINTER WARMERS FROM AROUND THE WORLD.</b></p> <p>(For safety reasons, participants must be 10 years or above)</p> <p>If you're dreaming of a white Christmas, Chef Explorer Brendon will lead you to gourmet greatness. French treats, European favourites, British Pudding and southern sensations from the USA.</p>	<p><b>J'ADORE FRANCAIS!</b></p> <p><b>AM</b> Famous French classic Beef bourguignon and delicious boulangère potatoes.</p> <p><b>PM</b> Get messy with chocolate with profiteroles.</p> <p><b>Masterchef Challenge-</b> the most artistic chocolate run outs!</p> 	<p><b>EUROPE AND A WEE BIT OF SCOTLAND</b></p> <p><b>AM</b> Christmas shortbread shaped as you wish for morning tea. Still Hungary?! Enjoy goulash and spätzle created with the special German grating sieve.</p> <p><b>PM</b> Waltz to the Café Sacher in Vienna to try their sachertorte chocolate cake.</p> 	<p><b>CHEF BRENDAN'S BRITAIN</b></p> <p><b>AM</b> Learn Brendan's homeland tricks to make the ancient chicken cock-a-leekie soup with delicious cheddar cheese croutes. Then explore the Lancashire hotpot. A great one to make again for your family.</p> <p><b>PM</b> Sticky toffee date pudding needs no introduction—super yummy!</p> 	<p><b>SOUTHERN USA SENSATIONS</b></p> <p><b>AM</b> Brendan's famous Caesar salad, Cajun chicken with secret herbs and spices, rice and Louisiana-style sweet corn fritters.</p> <p><b>PM</b> Who can make the most moist and delicious Mississippi mud cake and spell it correctly?</p> 
<p><b>SCIENCE PHUN - SIGHT, SOUND, SPACE, ACIDS AND ERUPTIONS</b></p> <p>No previous experience necessary. Let MLC Science sensations Beverly Brader and Danielle Wright take you on a journey of discovery in all things science. Grab a lab coat and safety glasses and take on the challenge of dissections, rockets, solar sails, acidic diffusions and more earth-shaking fun</p>	<p><b>SURPRISING SIGHT AND SOUND</b></p> <p><b>AM</b> Sight. Work with light boxes to discover how light enters our eyes, then get engrossed in an incredible eye dissection.</p> <p><b>PM</b> Good vibrations! Discover how sound reaches our ears by making musical instruments and more.</p> 	<p><b>TRAVEL TO ANOTHER STRATOSPHERE</b></p> <p><b>AM</b> Rocket Race. Who will use the morning's learnings to design the best rocket ship? We'll put them to the test.</p> <p><b>PM</b> Solar Sails. Rockets can only get us so far; let's harness the energy from the sun to travel to the furthest parts of the solar system.</p> 	<p><b>PHUN WITH ACIDS AND BASE</b></p> <p><b>AM</b> Common acids and bases. Test some common household substances to determine if they are acidic, then make your own indicator using the humble red cabbage.</p> <p><b>PM</b> Diffusion. Who would have thought that M&amp;M's could teach us so much? See how acid diffuses through different sized cubes and explore carbon dioxide and ocean acidification.</p>	<p><b>EARTH-SHAKING STUFF</b></p> <p><b>AM</b> Volcanoes. Build a model of the structure of the earth, then create a volcano and even some volcanic rocks. How have eruptions affected evolution?</p> <p><b>PM</b> Earthquakes. Take a scientific approach to discover the earth's tectonic plates, then build the best earthquake-proof structure to withstand the most severe tremor.</p>
